# Pinfeathers Rosetta Wreath

## MATERIALS LIST

- Hot Glue Gun & Sticks
- 18 inch styrofoam wreath
- 36 to 40 strips of 3" x 42" fabric OR scraps of fabric
- Fabric mat, ruler and rotary tool
- Patience

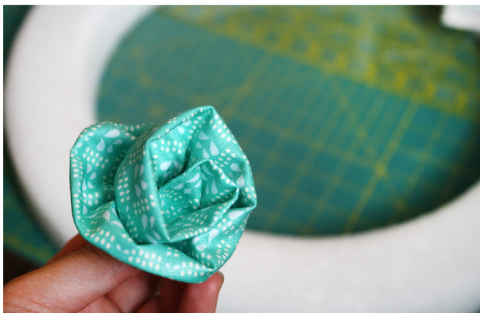

### STEP 1

Cut out strips of fabric that are 3" x 42" in size. Just leave fabric folded over once from where it was folded over on the bolt and cut 3" from the edge. You will need between 36 to 40 strips for an 18" styrofoam wreath. (If you are using fabric scraps, you need about 3" x 8" pieces. You will need 4 to 5 times as many of these strips).

### STEP 2

Fold a strip in half and sew and gather the raw edge. Using a ruffler foot helps this process. (PS You can skip this step and just go to this third step but you will need a lot more hot glue and a steady hand).

### STEP 3

Cut the ruffled strips into 4" to 5" pieces. Then twist the 4" ruffled strips into rosettes.

### STEP 4

Hot glue each rosette to the styrofoam wreath. Make sure to alternate colors if using several different scrap of fabric. Place close together.

### STEP 5

Fully fill in the entire wreath! Hang and enjoy!
